Thank you for purchasing Qmadix™ Boostpac Rechargeable Auxiliary Battery Pack.

The Boostpac rechargeable battery is ideal for powering and charging your mobile device. Please read the information and follow all instructions thoroughly before using this product.

Features Overview

- Rechargeable lithium ion battery
- Ultra small and lightweight for pocket, purse or briefcase
- LED battery indicator measures your power usage
- Smart Technology enables automatic shutoff to avoid overcharging

WARNING

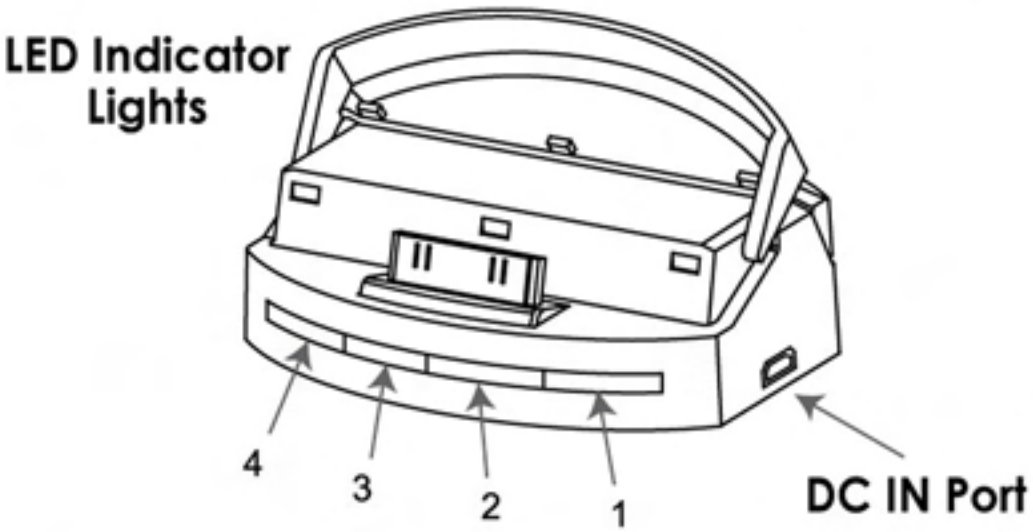
- Never disassemble the Boostpac
- The Boostpac can not charge 2 devices at the same time
- Boostpac can not be recharged while charging another device

Dispose of Boostpac properly.

The Boostpac contains battery cells and must not be discarded with ordinary household waste. Contact your local recycling center for proper disposal.

Charging Your Boostpac

Make sure to fully charge the Boostpac before use.



1. Make sure that the Micro USB cable or adapter is plugged into the Micro USB DC IN port. When charging, the Boostpac's indicator lights will signal the charge capacity as follows:
   - One indicator light:
     Battery capacity is less than 25%
   - 2 indicator lights:
     Battery capacity is less than 50%
   - 3 indicator lights:
     Battery capacity is less than 75%
   - All 4 indicator lights on:
     Battery capacity is greater than 76%
   - When fully charged, all 4 indicator lights will flash at the same time
2. Disconnect the Micro USB cable or adapter after Boostpac is fully charged.

Using Your Boostpac

Boostpac Eclipse Auxiliary Battery Pack charges any mobile device utilizing either a Micro USB, Mini USB, or iPod / iPhone connector including most Smartphones, PDAs, Bluetooth® headsets, music and gaming devices, and more by using a standard USB charging cable.

1. Make sure Boostpac is connected properly to your device prior to charging.
2. Your mobile device screen will display the charging symbol while the Boostpac is connected.
3. While charging, the Boostpac indicator lights will signal the amount of remaining battery power as follows:
   - All 4 indicator lights on:
     Battery capacity at 76% - 100%
   - 3 indicator lights:
     Battery capacity between 51% - 75%
   - 2 indicator lights:
     Battery capacity between 26% - 50%
   - One indicator light:
     Battery capacity between 0% - 25%
   - If all 4 indicator lights are off, Boostpac needs to be recharged

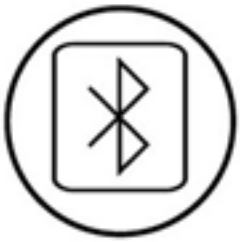
Note:

The Boostpac can not charge 2 devices at the same time.

Boostpac can not be recharged while charging another device.

Supports

iPod / iPhone



Bluetooth® devices with Micro USB ports

Micro USB Mobile and Gaming Devices
